The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial statements. This includes not only sales and purchases but also expenses, income, and transfers between accounts.

Next, the document outlines the process of reconciling bank statements with the company's records. This involves comparing the bank's record of transactions with the company's ledger to identify any discrepancies. Common reasons for differences include timing differences, such as deposits in transit or outstanding checks, and errors in recording or omission of transactions.

The document then provides a detailed explanation of the accounting cycle, which consists of eight steps: 1) identifying and recording transactions, 2) journalizing, 3) posting to the ledger, 4) calculating the trial balance, 5) adjusting entries, 6) preparing financial statements, 7) closing the books, and 8) reversing entries. Each step is described in detail, including the necessary journal entries and ledger postings.

Finally, the document discusses the importance of internal controls to prevent fraud and errors. It suggests implementing a system of checks and balances, such as separating duties, requiring approvals for transactions, and conducting regular audits. The document also provides a checklist of key internal control procedures for management to review.

Re: Underwriter Engagement Letter  
Limited Tax General Obligation Bonds, Series 2021A & Subordinate Limited Tax General  
Obligation Bonds, Series 2021B (the "**Securities**")

**Dear Sean:**

This letter confirms the agreement (the "Agreement") between Piper Sandler & Co. ("Piper Sandler" or "we" or "us") and **High Plains Ranch Metropolitan District** (the "Issuer" or "you") as follows:

1. **Engagement.** The Issuer hereby engages Piper Sandler to serve as an underwriter or placement agent for the Securities. As currently contemplated, the transaction will be an underwriting or private placement of the Securities with gross proceeds of approximately \$16,465,000. Sale and delivery of the Securities by the Issuer will occur on the day of closing ("Closing Date").
2. **Scope of Services.** We understand that the decision to either conduct a public sale of the Securities or sell the Securities in a private placement to a single or limited number of investors will be made by you sometime in the future. As a preliminary matter, we can assist you in determining whether to pursue a public sale or a private placement to a bank or other financial institution, based upon the facts and circumstances in evidence at that time. Depending on the capacity in which we would be acting, Piper Sandler agrees, as appropriate and directed by you, to provide the following services.

As an Underwriter:

- (a) Develop a financing plan for the Securities and assist you in determining the economic impact of the Securities;
- (b) Provide advice concerning structure, timing, terms and other similar matters concerning the Securities, including recommendations as to maturities, interest rates, structure, security, timing, and amount of proceeds needed to implement your project;
- (c) Review and make comments with respect to sale documents, as applicable, including Explanatory Statements, Authorizing Bond Resolutions, bond declarations and indentures and other underlying documents relating to the Securities;
- (d) Develop a sale schedule that incorporates all aspects of bringing Securities to market and arranging for a successful closing of the transaction;
- (e) Assist in the preparation of the preliminary and final Official Statements to be issued by you relating to the Securities for final approval by you and your agents, including bond counsel;
- (f) Distribute preliminary and final Official Statements and other documents to a broad list of institutions, banks, trusts, insurance companies, professional investment advisors, and other prospective investors in Securities;

- (g) Develop a marketing plan for the offering, including identification of potential investors;
- (h) Negotiate the pricing, including the interest rate, and other terms of Securities;
- (i) Obtain CUSIP number(s) for Securities and arranging for their DTC book-entry eligibility as required;
- (j) Provide a final schedule of debt service payments for Securities;
- (k) Review and make comments with respect to closing documents prepared by Bond Counsel;
- (l) Plan and arrange for the closing and settlement of the issuance and the delivery of Securities; and
- (m) Other activities that are integral to the purchase and distribution of the Securities and activities integral to fulfilling the role of a placement agent or underwriter including under the antifraud provisions of the federal securities laws and the obligations of Piper Sandler under MSRB rules.

*As a Placement Agent:*

- (a) consult with you in planning and implementing the placement of the Securities;
- (b) assist you in reviewing any transaction materials (the "Transaction Materials") we mutually agree are beneficial or necessary to the consummation of the transaction;
- (c) assist you in preparing for due diligence conducted by potential investors;
- (d) identify potential investors and use our reasonable commercial efforts to assist in arranging sales of the Securities to investors;
- (e) assist you in negotiating definitive documentation.

3. ***Fees and Expenses.***

For our services, you agree to pay us an underwriting discount as described below of the gross proceeds received by you on all sales of the Securities payable as a discount to the purchase price or by wire transfer of immediately available funds at closing. For avoidance of doubt, the fee shall not be payable in the event a closing of the Securities does not occur.

Non-Rated Senior Debt	Non-Rated Subordinate Debt
2%	3%

4. ***Representations, Warranties and Agreements of the Issuer.***

You represent and warrant to, and agree with us, that:

- (a) the Securities will be sold by you in compliance with the requirements for exemptions from registration or qualification of, and otherwise in accordance with, all federal and state securities laws and regulations;
- (b) you will make available to us and each purchaser such documents and other information which we and each purchaser reasonably deem (the "Transaction Materials") appropriate and will provide access to your officers, directors, employees, accountants, counsel and

other representatives and will provide each purchaser and us opportunities to ask questions and receive answers from these persons; it being understood that we and each purchaser will rely solely upon such information supplied by you and your representatives without assuming any responsibility for independent investigation or verification thereof; and

- (c) you agree to be responsible for the accuracy and completeness of any Transaction Materials to the extent of federal securities laws applicable to the transaction. You agree to notify us promptly of any material adverse changes, or development that may lead to any material adverse change, in your business, properties, operations, financial condition or prospects and concerning any statement contained in any Transaction Materials, or in any other information provided to us, which is not accurate or which is incomplete or misleading in any material respect;
- (d) all financial projections that have or will be made available to Piper Sandler by you or any of your representatives in connection with the Transaction (the "Projections") have been and will be prepared in good faith and will be based upon assumptions believed by you to be reasonable (it being understood that projections by their nature are inherently uncertain and no assurances are being given that the results reflected in the Projections will be achieved);
- (e) If we are acting as Underwriter on the Closing Date, you will deliver or cause to be delivered to us an Opinion of Bond Counsel to you, dated the Closing Date relating to: the validity of the Securities; exemption from registration and qualification under federal and state securities law; and if applicable the tax-exempt status of the Securities, together with a reliance letter from such counsel, dated the Closing Date and addressed to us and in a form acceptable to us.

5. **Other Matters Relating to Our Engagement.** The parties agree that we are not making a final commitment to underwrite or place securities until certain events have occurred including among other things, a successful authorizing bond election, satisfactory completion and execution of all final documentation for an offering including all terms and conditions and credit approval by Piper Sandler's internal credit approval process. This Agreement is therefore not a final commitment by us express or implied, to underwrite, place or purchase any securities. If you elect to conduct a public offering of the Securities, you and Piper Sandler will enter into a definitive bond purchase agreement which shall supersede the provisions of this agreement in any conflicting respects, except that the parties agree that the fee provisions set forth in Section 3 will continue to apply.

You acknowledge that you have retained us solely to provide the services to you as set forth in this agreement. As underwriter or placement agent, Piper Sandler may provide advice concerning the structure, timing, terms, and other similar matters concerning the transaction. You acknowledge and agree that: (i) the primary role of Piper Sandler as an underwriter or placement agent, is to sell or place securities to investors in an arms-length commercial transaction and that Piper Sandler has financial and other interests that differ from your interests (ii) Piper Sandler is not acting as a municipal advisor, financial advisor or fiduciary to you or any other person or entity and has not assumed any advisory or fiduciary responsibility to you with respect to the transaction contemplated herein and the discussions, undertakings and proceedings leading thereto (irrespective of whether Piper Sandler has provided other services or is currently providing other services to you on other matters) (iii) the only obligations Piper Sandler has to you with respect to the transaction contemplated hereby expressly are set forth in this agreement and (iv) you have consulted your own legal, accounting, tax, financial and other advisors, as applicable, to the extent deemed appropriate in connection with the transaction contemplated herein.

6. **Disclosure.** Attached to this letter are regulatory disclosures required by the Securities and Exchange Commission and the Municipal Securities Rulemaking Board to be made by us at this

time because of this engagement. We may be required to send you additional disclosures regarding the material financial characteristics and risks of such transaction or describing those conflicts. At that time, we also will seek your acknowledgement of receipt of any such additional disclosures. It is our understanding that you have the authority to bind the Issuer by contract with us, and that you are not a party to any conflict of interest relating to the Securities. If our understanding is incorrect, please notify the undersigned immediately.

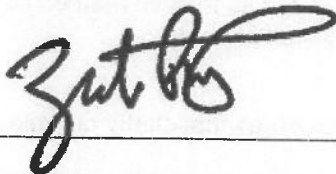

7. **Termination.** You or we may terminate our engagement under this agreement, with or without cause, upon ten days' written notice to the other party. The fee, expense reimbursement, your representations, warranties and agreements, and miscellaneous provisions of this agreement will survive any termination of our engagement under this agreement.
8. **Section Headings.** Section headings contained herein are for convenience of reference only and are not part of this agreement.
9. **Amendment.** This agreement may be amended only by a written instrument executed by each of the Parties. The terms of this agreement may be waived only by a written instrument executed by the party waiving compliance.
10. **Entire Agreement.** This agreement embodies the entire agreement and understanding between you and us and supersedes all prior agreements and understandings relating to the subject matter of this agreement.
11. **No Assignment.** This agreement has been made by the Issuer and Piper Sandler, and no other person shall acquire or have any right under or by virtue of this agreement.
12. **Governing Law.** This agreement, and all claims or causes of action (whether in contract or tort) that may be based upon, arise out of or relate to this agreement or the negotiation, execution or performance of this agreement, will be governed by and construed in accordance with the laws of Colorado. You and we hereby waive all right to trial by jury in any action, proceeding, or counterclaim (whether based upon contract, tort or otherwise) in connection with any dispute arising out of this agreement or any matters contemplated by this agreement.
13. **Consent to Jurisdiction; Service of Process.** The parties each hereby (a) submits to the jurisdiction of any state or federal court sitting in the County in which the District is located, State of Colorado for the resolution of any claim or dispute with respect to or arising out of or relating to this agreement or the relationship between the parties (b) agrees that all claims with respect to such actions or proceedings may be heard and determined in such court, (c) waives the defense of an inconvenient forum, (d) agrees not to commence any action or proceeding relating to this agreement other than in a state or federal court sitting in the County in which the District is located, State of Colorado and (e) agrees that a final judgment in any such action or proceeding shall be conclusive and may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. Each party hereto irrevocably consents to service of process in the manner provided for notices in Section 17. Nothing in this agreement will affect the right of any party to this agreement to serve process in any other manner permitted by law.
14. **Effectiveness.** This agreement shall become effective upon its execution by duly authorized officials of all parties hereto and shall be valid and enforceable from and after the time of such execution.
15. **Severability.** In the event any provision of this agreement shall be held invalid or unenforceable by any court of competent jurisdiction, such holding shall not invalidate or render unenforceable any other provision hereof. You and us will endeavor in good faith negotiations to replace the invalid or unenforceable provisions with valid provisions the economic effect of which comes as close as possible to that of the invalid or unenforceable provisions.

16. **Counterparts.** This agreement may be executed in several counterparts (including counterparts exchanged by email in PDF format), each of which shall be an original and all of which shall constitute but one and the same instrument.
17. **Notices.** Any notice required or permitted to be given under this agreement shall be given in writing and shall be effective from the date sent by registered or certified mail, by hand, facsimile or overnight courier to the addresses set forth on the first page of this agreement with a copy sent to the General Counsel of such Party.
18. THE PARTIES HEREBY IRREVOCABLY WAIVE ALL RIGHT TO A TRIAL BY JURY IN ANY ACTION, PROCEEDING OR COUNTERCLAIM ARISING OUT OF OR RELATING TO THIS AGREEMENT.

Please confirm that the foregoing correctly and completely sets forth our understanding by signing and returning to us the enclosed duplicate of this engagement agreement.

Sincerely,

**Zach Bishop, Managing Director**

## Appendix A – G-17 Disclosure

We are writing to provide you with certain disclosures relating to the Bonds, as required by the Municipal Securities Rulemaking Board (MSRB) Rule G-17 in accordance with MSRB Notice 2012-25 (May 7, 2012). Under federal regulations, all underwriters are required to send the following disclosures to you (as the Issuer of the Bonds) in order to clarify with you the role of an underwriter and other matters relating to an underwriting of the Bonds.

Piper Sandler intends to serve as an underwriter respecting the Bonds and not as a financial advisor or municipal advisor. As part of our services as an underwriter, Piper Sandler may provide advice concerning the structure, timing, terms, and other similar matters concerning an issue of municipal securities that Piper Sandler is underwriting.

Piper Sandler has been engaged to act as your underwriter in a negotiated underwriting, and by engaging Piper Sandler as your underwriter, you determined to sell the Bonds by negotiated sale. A negotiated sale is the sale of a new issue of municipal securities by an issuer directly to an underwriter or underwriting syndicate selected by the issuer. A negotiated sale is distinguished from a sale by competitive bid, which requires public bidding by the underwriters. Piper Sandler did not advise you as to what method of sale (competitive or negotiated sale) you used for this issuance of municipal securities.

### ***Our Role as Underwriter:***

In serving as underwriter for the Bonds, these are some important disclosures that clarify our role and responsibilities:

- (i) MSRB Rule G-17 requires an underwriter to deal fairly at all times with both municipal issuers and investors;
- (ii) The underwriter's primary role is to purchase securities with a view to distribution in an arm's-length commercial transaction with the Issuer and it has financial and other interests that differ from those of the Issuer;
- (iii) Unlike a municipal advisor, the underwriter does not have a fiduciary duty to the Issuer under the federal securities laws and is, therefore, not required by federal law to act in the best interests of the Issuer without regard to its own financial or other interests;
- (iv) The underwriter has a duty to purchase securities from the Issuer at a fair and reasonable price, but must balance that duty with its duty to sell municipal securities to investors at prices that are fair and reasonable; and
- (v) The underwriter will review the official statement for the Issuer's securities in accordance with, and as part of, its responsibilities to investors under the federal securities laws, as applied to the facts and circumstances of the transaction.<sup>1</sup>

### ***Our Compensation:***

The underwriter will be compensated by a fee and/or an underwriting discount that will be set forth in the bond purchase agreement to be negotiated and entered into in connection with the issuance of the Bonds. Payment or receipt of the underwriting fee or discount will be contingent on the closing of the transaction and the amount of the fee or discount may be based, in whole or in part, on a percentage of the principal amount of the Bonds. While this form of compensation is customary in the municipal securities market, it presents a conflict of interest since the underwriter may have an incentive to recommend to the Issuer a transaction that is unnecessary or to recommend that the size of the transaction be larger than is necessary.

---

<sup>1</sup> Under federal securities law, an issuer of securities has the primary responsibility for disclosure for investors. The review of the official statement by the underwriter is solely for purposes of satisfying the underwriter's obligations under the federal securities laws and such review should not be construed by an issuer as a guarantee of the accuracy or completeness of the information in the official statement.

***Risk Disclosures:***

In accordance with the requirements of MSRB Rule G-17, attached as Appendix B is a description of the material aspects of a typical fixed rate offering. This letter may be later supplemented if the material terms of the Bonds change from what is described here.

If you have any questions or concerns about these disclosures, please make those questions or concerns known immediately to me. In addition, you should consult with your own financial, legal, accounting, tax and other advisors, as applicable, to the extent you deem appropriate.

## Appendix B – Risk Disclosures

The following is a general description of the financial characteristics and security structures of fixed rate municipal bonds (“Fixed Rate Bonds”), as well as a general description of certain financial risks that you should consider before deciding whether to issue Fixed Rate Bonds.

### Financial Characteristics

*Maturity and Interest.* Fixed Rate Bonds are interest-bearing debt securities issued by state and local governments, political subdivisions and agencies and authorities. Maturity dates for Fixed Rate Bonds are fixed at the time of issuance and may include serial maturities (specified principal amounts are payable on the same date in each year until final maturity), one or more term maturities (specified principal amounts are payable on each term maturity date), a combination of serial and term maturities, or bullet maturities, in which all the Bonds mature on a single maturity date. The final maturity date typically will range between 10 and 30 years from the date of issuance. Interest on the Fixed Rate Bonds typically is paid semiannually at a stated fixed rate or rates for each maturity date.

*Redemption.* Fixed Rate Bonds may be subject to optional redemption, which allows you, at your option, to redeem some or all of the bonds on a date prior to scheduled maturity, such as in connection with the issuance of refunding bonds to take advantage of lower interest rates. Fixed Rate Bonds will be subject to optional redemption only after the passage of a specified period of time, often approximately ten years from the date of issuance, and upon payment of the redemption price set forth in the bonds, which may include a redemption premium. You will be required to send out a notice of optional redemption to the holders of the bonds, usually not less than 30 days prior to the redemption date. Fixed Rate Bonds with term maturity dates also may be subject to mandatory sinking fund redemption, which requires you to redeem specified principal amounts of the bonds annually in advance of the term maturity date. The mandatory sinking fund redemption price is 100% of the principal amount of the bonds to be redeemed.

### Security

Payment of principal of and interest on a municipal security, including Fixed Rate Bonds, may be backed by various types of pledges and forms of security, some of which are described below.

#### *General Obligation Bonds*

“General obligation bonds” are debt securities to which your full faith and credit is pledged to pay principal and interest. If you have taxing power, generally you will pledge to use your ad valorem (property) taxing power to pay principal and interest. Ad valorem taxes necessary to pay debt service on general obligation bonds may not be subject to state constitutional property tax millage limits (an unlimited tax general obligation bond). The term “limited” tax is used when such limits exist.

General obligation bonds constitute a debt and, depending on applicable state law, may require that you obtain approval by voters prior to issuance. In the event of default in required payments of interest or principal, the holders of general obligation bonds have certain rights under state law to compel you to impose a tax levy.

#### *Revenue Bonds*

“Revenue bonds” are debt securities that are payable only from a specific source or sources of revenues. Revenue bonds are not a pledge of your full faith and credit and you are obligated to pay principal and interest on your revenue bonds only from the revenue source(s) specifically pledged to the bonds. Revenue bonds do not permit the bondholders to compel you to impose a tax levy for payment of debt service. Pledged revenues may be derived from operation of the financed project or system, grants or excise or other specified taxes. Generally, subject to state

law or local charter requirements, you are not required to obtain voter approval prior to issuance of revenue bonds. If the specified source(s) of revenue become inadequate, a default in payment of principal or interest may occur. Various types of pledges of revenue may be used to secure interest and principal payments on revenue bonds. The nature of these pledges may differ widely based on state law, the type of issuer, the type of revenue stream and other factors.

#### General Fund Obligations

"General Fund Obligations" are debt securities that are payable from an issuer's general fund and are not secured by a specific tax levy like a general obligation bond or a specific revenue pledge like a revenue bond. General fund obligations come in many varieties and may be a continuing obligation of the general fund or may be subject to annual appropriation. Often general fund obligations are issued in the form of certificates of participation in a lease obligation of the issuer.

#### **Financial Risk Considerations**

Certain risks may arise in connection with your issuance of Fixed Rate Bonds, including some or all of the following:

##### Risk of Default and Fiscal Stress

You may be in default if the funds pledged to secure your bonds are not sufficient to pay debt service on the bonds when due. The consequences of a default may be serious for you and may include the exercise of available remedies against you on behalf of the holders of the bonds. Depending on state law, if the bonds are secured by a general obligation pledge, you may be ordered by a court to raise taxes or other budgetary adjustments may be necessary to enable you to provide sufficient funds to pay debt service on the bonds. If the bonds are revenue bonds, subject to applicable state law and the terms of the authorizing documents, you may be required to take steps to increase the available revenues that are pledged as security for the bonds.

Bonds payable from the general fund, particularly bonds without a defined revenue stream identified to pay debt service, reduce your flexibility to balance the general fund. Because a fixed debt service payment is required to be paid regardless of how your general fund is impacted by revenue losses or by increased expenses, you have less flexibility in the options available to you in assuring a balanced budget for your general fund.

General Fund Obligations that are Project Based. Some general fund obligations are issued for projects which are expected to generate revenues that will pay for some or all of the debt service on the bonds. In the event the project does not generate the anticipated levels of revenues available for debt service, or, in the extreme case, does not create any revenue available for debt service, you may need to make payments from other available general fund revenues. This may force you to reduce other expenditures or to make difficult decisions about how to pay your debt service obligation while meeting other expenditure needs.

General Fund Obligations that are Subject to Annual Appropriation. Some general fund obligations require that debt service is subject to annual appropriation by your governing body. If your governing body decides not to appropriate payments for debt service, your credit ratings may be negatively impacted and you may be forced to pay a higher interest rate on future debt issuance or may be unable to access the market for future debt issuance.

For all bonds, a default may negatively impact your credit ratings and may effectively limit your ability to publicly offer bonds or other securities at market interest rate levels. Further, if you are unable to provide sufficient funds to remedy the default, subject to applicable state law and the terms of the authorizing documents, it may be necessary for you to consider available alternatives under state law, including (for some issuers) state-mandated receivership or bankruptcy. A default also may occur if you are unable to comply with covenants or other provisions agreed to in connection with the issuance of the bonds.

Redemption Risk

Your ability to redeem the bonds prior to maturity may be limited, depending on the terms of any optional redemption provisions. In the event that interest rates decline, you may be unable to take advantage of the lower interest rates to reduce debt service.

Refinancing Risk

If the financing plan contemplates refinancing some or all of the bonds at maturity (for example, if there are term maturities, bullet maturities or if a shorter final maturity is chosen than might otherwise be permitted under the applicable federal tax rules), market conditions or changes in law may limit or prevent the refinancing of those bonds when required. Further, limitations in the federal tax rules on advance refunding of bonds (an advance refunding of bonds occurs when tax-exempt bonds are refunded more than 90 days prior to the date on which those bonds may be retired) may restrict the ability to refund the bonds to take advantage of lower interest rates.

Reinvestment Risk

You may have proceeds of the bonds to invest prior to the time that you are able to spend those proceeds for the authorized purpose. Depending on market conditions, you may not be able to invest those proceeds at or near the rate of interest that you are paying on the bonds, which is referred to as "negative arbitrage".

Tax Compliance Risk

The issuance of tax-exempt bonds is subject to a number of requirements under the United States Internal Revenue Code, as enforced by the Internal Revenue Service (IRS). You must take certain steps and make certain representations prior to the issuance of tax-exempt bonds. You also must covenant to take certain additional actions after issuance of the tax-exempt bonds. A breach of your representations or your failure to comply with certain tax-related covenants may cause the interest on the bonds to become taxable retroactively to the date of issuance of the bonds, which may result in an increase in the interest rate that you pay on the bonds or the mandatory redemption of the bonds. The IRS also may audit you or your bonds, in some cases on a random basis and in other cases targeted to specific types of bond issues or tax concerns. If the bonds are declared taxable, or if you are subject to audit, the market price of your bonds may be adversely affected. Further, your ability to issue other tax-exempt bonds also may be limited.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income. The document provides a detailed list of items that should be tracked, such as inventory levels, accounts payable, and accounts receivable. It also outlines the procedures for recording these transactions, including the use of double-entry bookkeeping to ensure that the books balance.

The second part of the document focuses on the analysis of the financial data. It explains how to calculate key financial ratios and metrics, such as the gross profit margin, operating profit margin, and return on equity. These metrics are used to assess the company's financial performance and to identify areas for improvement. The document also discusses the importance of comparing the company's performance to industry benchmarks and to its own historical performance.

The third part of the document addresses the issue of financial reporting. It explains the requirements for preparing financial statements, including the balance sheet, income statement, and cash flow statement. It also discusses the importance of providing clear and concise explanations of the data presented in these statements. The document provides a template for the financial statements and offers guidance on how to present the information in a way that is easy to understand and interpret.

In conclusion, the document emphasizes the importance of maintaining accurate and up-to-date financial records. It provides a comprehensive guide to the accounting process, from recording transactions to analyzing the data and preparing financial reports. By following the guidelines outlined in this document, companies can ensure that their financial data is accurate and reliable, and that they are able to make informed decisions based on that data.
