- a. Presentation and discussion at meeting: The Board discussed the Wetlands issue brought up by Mr. Gatto. Director Kerby referenced the Wetlands Mitigation Agreement that was signed on November 8, 2011 that indicated the District will cooperate and advocate for Mr. Gatto to obtain a permit. He noted it does not say anything about monetarily helping or anything else. Mr. Gatto explained he has a 1 acre site plan approved with development obligations with the City. He presented a map and noted a highlighted area that shows where the District was to mitigate the wetlands and be graded. Mr. Schooler pointed out that the documents do not

mention grading. Mr. Gatto said he has another deal under contract that will require that the wetlands problem be solved. Mr. Gatto referenced the maps and explained the problem is the grading was not done in the District's mitigation area and has developed into wetlands. Mr. Gatto said the Corps of Engineers is telling him that the 3.2 acre area needs to be mitigated and he doesn't think that is his obligation. Mr. Walker said he will coordinate with Mr. Gatto and Mr. Schooler to discuss this issue further and work on a resolution.
